The Chinese Communists Want Early Jap Ireaty

San Francisco, June 26 .--The Chinese Communists called on Sunday for speed in writing a Japanese peace treaty.

They reiterated their demand that their contemplated "Democratic Coalition Government" participate in drafting the treaty. Tre Chinese Reds supported the Russian demand that preparations be made by the Pacific Big Four-with Communist China substituting for Nationalist China. These views were expressed in an editorial of the Tientsin Progressive daily and broadcast by the Pelping CAPSUIMUN radio. It was heard by the Associated Press in San Francisco.

ACTION CRITICISED The editorial attacked the U.S. nction in halting Japanese reparations payments as "unreasonable and twisting of facts" with the intent of "turning Japan into an American arsenal in the East."

The radio also assailed the American view that the Japanese peace treaty should be this morning between a ing to the Far Eastern Com- the Capsuimun Pass, off mission. It asserted the Commission was "completely under the thumb of America."

write the treaty "to let General channel shortly after 4 a.m., MacArthur continue to be the from Kongmoon, -- while the emperor, of Japan to enslave junk, Hip Fat, with a crew of and drive the Japanese people 17, and aix passengers, was to become eannon fodder for heading in the opposite direc-American Imperalism."-Associated Press.

Reject Offer With Disgust

London, June 26,-The Acton, London and Manchester branches of the National Union of Railwaymen today rejected the Railway Executive's offer of wage increases to meet the union demand of 10

shillings a week. The Manchester meeting rejected "with disgust" the offer, which was supposed to remain secret, but which was stated today, "on good nuthority," to be a three shillings per week increase for lower paid workers and nothing for those carning over £4.18.0. a week.

The Manchester men declared for a resumption of the "go slow" working. Delegates representing 1,500 union branches will meet in London on Tuesday to discuss the wages' situation.—Reuter.

Hands Playing Out Of Harmony

Reds Predicted

SENATOR TAFT FORESEES LOT OF PRESSURE

Washington, June 26. — Republican Senator Robert Taft today predicted that the administration would exert a "lot of pressure" for full diplomatic recognition of the impending Communist regime in China.

Senator Taft made his statement as he and other Senators urging more American aid for the Chinese Nationalists awaited the State Department's decision on whether the United States would observe the Nationalist blockade of Communist-held ports.

Republican Senator William Knowland told the United Press that if the State Department, in collaboration with the British, chose to ignore the blockade, it would mean American policy has undergone a complete shift and that the United States is now backing the Communist Government."

The State Department is discussing its future. course in China with other nations affected by the passing of Chiang Kai-shek's Nationalist regime in North China. It was not hinted whether the Communists would be recognised, but some time soonperhaps this week—the Department may issue a White Paper on the entire Chinese situation. The document reportedly will charge that corruption within the Chiang government led to the Nationalist downfall in North China and withholding of further American aid to the Nationalists.

On recognition of the Com- | programme with funds and a munists, President Truman could United States Ambassador, he two members of the recognise the Red government would have to ask Congress for without asking Congressional approval of both. approval. However, if he wanted

abaurd as to be laughable to those Chinese who know Hongkong, or are today living here, but cunningly convincing to those Chinese who, have never had the opportunity of seeing the Colony and enjoying the benefits of its magnanimous administration. It is a thousand pities that the Chinese Communists, who by their personal behaviour in cities such as Changhal, Pelping, Nanking and Tientsin, gain the confidence and friendship of Fir foreigners, should permit their propaganda machinery to come between such desirable relationships. Likewise the inspired attack upon the good faith of the only British-owned newspaper in Shanghai, The North China Daily News, has brought sharp doubts in the minds of Britons and other foreigners about the actual intentions of the Communists in their dealings with third power nationals and their interests. The freedom of the press is a genuine concern of the Western democracies-freedom. ns distinct from licence, and while it is now apparent that the North China Daily News technically ylolated the somewhat rigid regulations imposed by the Chinese Communists on newspaper reporting, this did not merit the hounding to which the NCDN was

paign, brief though it was, could be discerned the unfortunate prospect of future anti-British press campaigns which would be bound to have detrimental effects on relationships with the Communist administration. Even graver implications could be seen in the closing down, under duress, of the liberalthinking American-owned Evening Post and Mercury, for in this case Labour was allowed to assert itself in an arrogant manner with no attempt made by the Authorities or Union leaders to intervene and mediate on rational and compromising lines. The status of the editor as being the person to decide what should and what should not appear in the paper was successfully challenged by the Chinese technicians and his authority allowed to be flaunted. It is a regrettable affair, not only because it has meant the closing down of one of the best newspapers in the Far East, but because it suggests the Chinese Communists in Shanghai are prepared to lend. at least tacit approval to overt acts of intimidation on the part of Labour, and are not, at least in the case of foreign businesses, willing to demand ordinary discipline from workers. The rights of the workers must, of course, always be fully protected, but this can be done without them being permitted. to go to extremes, especially where the dispute involves principles. The Communists are noted for their party. discipline, and they will find it advisable to see that discipline is also applied to Labour, whether it be organised through trade unions, or is independent. The important part which the workers play in the smooth and efficient running of a city such as Shanghai is well recognised, but if these men are allowed to dictate to employers, whether Chinese or foreign, they will rapidly replace order and good administration with chaos and

Chinese publications. Behind the cam-

TOO DANGEROUS TO LIVE—Deputies in Polk City, Iowa, hold seven baby wolves in the county auditor's office. Found by Harold Wicker, of Granger, while hunting for mushrooms, Wicker turned the pups in for the \$5 bounty the county pays for each wolf. The mimals were destroyed because of the menace they would become if allowed to grow up.

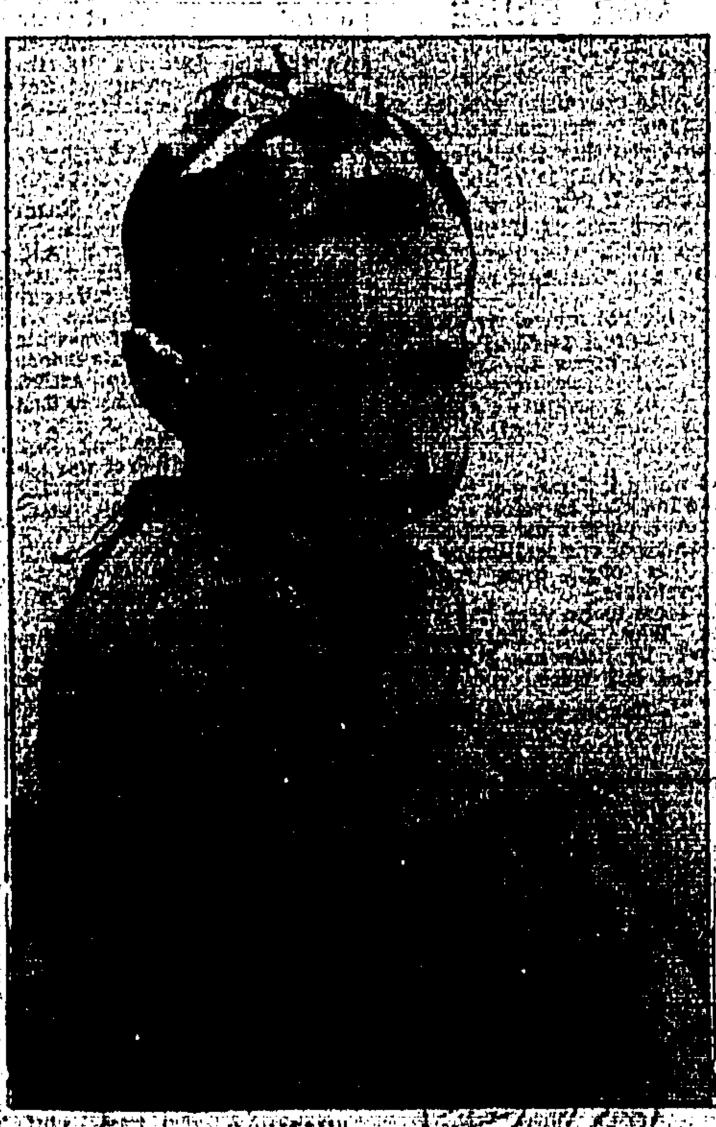

SHE'LL BE THE FIRST—Sgt. Pearl A. Jackson, of Jackson Heights, New York, gets a welcome letter from Maj. Sidney J. Altman, recruiting officer in New York. It informs her that she is the first woman to be selected for the US Marine Corps Women's Officer Training Class. Capt. Barbara Somers watches the presentation.

SEEK MORE PAY FOR GI HUSBANDS— Wives of service men gather in the Old House Office in Washington, DC, before separating to see individual Congressmen to enlist their support for the armed services pay increase bill. About 100 of them swooped down on Congress with demands that their husbands' service pay be raised.

NEWEST—This is the new 45-foot rocket, developed to replace the German V-2. Technicians can reach all parts of it from platforms on the movable drawbridge at the White Sands Proving Grounds, near Las Cruces, New Mexico. The weapon rose to an altitude of 51½ miles and attained a speed of 2,250 miles per hour.

PRETTY PICTURE — Mrs Beatrice Ostrow, of Brooklyn, New York, needed an apartment for her family. She malled out 1,000 postcards bearing this picture of her 15-month-old daughter, Franciae, to real estate agents. Beaenth was inscribed: Won't somebody rent my mommy and daddy, a nice apartment?"

Monroe, in Hollywood, wears this ermine costume in a new film with the Marx Brothers.

AD TOR STRIKERS—These unti-Communist rallway strikers in the US sector of Jimin receive some help from the US. They are getting part of the \$5,000 world by CARE food packages sent as a token gift by the American Federation.

Chowshan Islands "Chaotic"

Full Of Troops, Govt Officials

Shanghal, June 27.-With their population awollen by hundreds of Nationalist troops routed in recent battles, Chowshan Island, off the Cheklang coast at the mouth of Hangchow Bay, are in a chaotic state, according to reports carried here by descriing Nationalist soldiers. Housing shortage and disorderly conscription, resulting from the lack of a unliled command, are said to be the main trouble in the Islands, where half a dozen Nationalist provincial governments are taking refuge under the protection of the Navy.

Every home in the group of Islands is said to be housing a group of soldiers or provincial government officials.

It is reported that the possibility of a general flare-up exists, as Nationalist military forces, regular and . irregular, representing more than a dozen units, are forcibly taking men from each other in an effort to caused by defections and losses suffered on the mainland. One result is that soldiers

now dare not walk alone in the streets lest they be "kidnapped". into another unit. They therefore go about in groups. Prices are said to be skyrocketting because of the sudden increase in the Islands'

population. Certain essential commodities are already unobtainable, while people are combing the treeless countryside for grass to meet

the lack of fuel. Leading Nationalist military and civilian officials are said to planning to send their familles to Talwan .- Reuter.

PAPER TO RESUME **PUBLICATION**

Shanghal, June 26. — Sin Wan Pao, for years the largest newspaper in China, will resume publication on Wednesday, according to an advertisement in the Communist Liberation Daily. London, June 25 .- The

London, June 25.—England's first-day declaration in the Test Match against New Zealand at Lord's yesterday was "not in the rules," according to a statement issued at Lord's today. But because the New Zealand captain, W. A. Hadlee, and the umpires

accepted the declaration, the match is likely to continue tomorrow without in-terruption.

The following statement was issued by Major. Aird, Assistant Secretary of Lord's Cricket Ground

"The question has ari en as to the correctness or otherwise of the declaration on the first day of the Second Test Match now in progress.

"Law XV does not provide for a declaration on the first day of a three-day match, and special instructions to umpires in 1949 state that the experimental rule allowing a declaration in other first class matches after 300 runs have been scored does not apply to Test matches.

'Either the New Zealand captain or the umpires would, therefore, have been justified in refusing to accept the declaration at the time it was

"Objection to a breach of the playing conditions should, however, be made at the time.

"Since this was not done it would not appear that a dispute exists, and the match will be contimued tomorrow in accordance with Law. 46."-Reuter.

DILLARD & MCKENLEY BEATEN

TRACK CHAMPIONSHIPS

Fresno, C lifornia, June 26 .- Two world record holders, Herbert McKenley, of Jamaica, and Harrison. Dillard, of Cleve and, suffered defeats in the annual Amateur Athletic Union's track and field championships Marinon Dillard have last night.

George Rhoden, of Morgan State College, Baltimore, defeated McKenley. in the 400 Metres race, while Dillard was narrowly beaten in the 110 Metres High Hurdles by Craig Dixon, who was third in the Olympic event last year, In the 400 Metres event, McKenley jumped into the lead at the start and led by several yards until the home stretch. Rhoden, however, then sprinted past him and won easily. McKenley, who was competing for the Long Branch Shore Athletic Club, finished second.

Haiti: Land of Contrasts By TEMPLE MANNING

NEW American opera with Halti as its theme and locale has served to focus attention, tourist and otherwise, on that country which, together with the Dominican Republic, make up a land mass once known as Hispaniola. Haiti is what we would recommend for any traveller in search of a place that is different, chock full of personality.

It is a land of contrasts, and this is apparent as soon as one hits Port-au-Prince, capital and main port. There are showy buildings fine parks bright with fountains and statues, there is the beautiful cathedral and the gleaming white National Palace. And then, in the central park of the city, there are whole streets of even business build-1. Which is heavier, milk or ings and houses partly supported on rickety poles.

dreadful or submerged about on the heights. From the there is no 'r' in the month. a sort of suspended carnival air down on the city and listens to name is Oyster," said the bream about the whole place.

Interesting People If Port-au-Prince had nothing else, it would still have a wonderful attraction in its people from the humblest working class right through to the few hundred familles of exquisite

Ceylon Rubber Formula For Bridging Industry Faces The Gap Grave Crisis New York, June 26.— Britain hopes to avoid new austerity cuts by bridging the "dollar gap" with higher output and lower

THE BUSINESSMAN

AMERICA'S "CONSUMER CONTROL" OVER WORLD

Colombo, June 26.—The Ceylon Government said today that the United States had a consumer control over the world rubber market, and that the industry in Ceylon was facing a crisis from which it could not, in the long run, be saved either by Government subsidy or legislation.

The statement said that it was inevitable that a large acreage of uneconomic rubber plantations would be turned over to other crops or be re-afforested.

The Government said the future of the industry was unpredictable, but that experts suggested that it would become cliher a smallholders' industry, in which owners provided their own labour to cut costs, or a highly intergrated imlustry. with large units of 10,000 acres or more, permitting economics through mass production.

"In other words," said the statement, "there is no future for inefficient producers paying minimum wages and other 1.--Credit controls over instal- | statutory allowances."
